

# INSANE AUDIO

## IACARPLAY

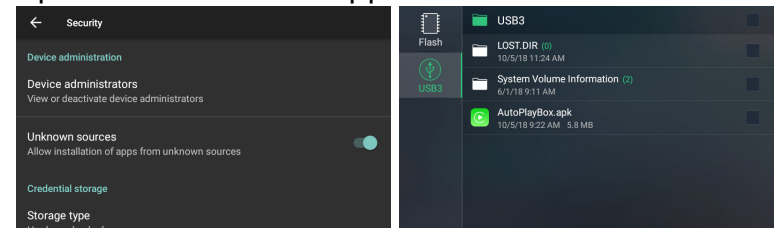

*IACarPlay* interfaces between your smartphone and the USB port on your Insane Audio head unit, providing full Android Auto™ or Apple CarPlay™ functionality.

If you need any additional information or technical assistance, feel free to reach out to us anytime at <http://insaneaudio.com/support>.

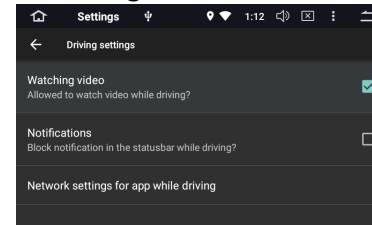

**WWW.INSANEAUDIO.COM**

### SETUP

1. Go to <http://insaneaudio.com/support> and download the software for *IACarPlay*.
2. Copy the APK file to a USB thumb drive or microSD card (formatted as FAT32 or NTFS).
3. Insert your storage media into the head unit.
4. Go to **Settings > Security** and allow installation from unknown sources.
5. Open the *FileBrowser* app and install the APK file.

6. Go to **Settings > Driving settings** and allow watching video.

7. Plug the *IACarPlay* module into a USB port.
8. Plug your phone into the *IACarPlay* module.

### ANDROID PHONES

Owners of Android™ smartphones will need to install the *Android Auto* app on the phone. Find it on the Google Play™ Store.
